

KK KUKLA
SCAFFOLDING

KUKLA SCAFFOLDING MAKES PROJECTS COME TRUE

COMPANY VISION

Our goal is to build a strong name in the European market and eventually reach other continents. Our goal is to build a strong name in the European market and eventually reach other continents.

01.

PROFESSIONALISM IS A MATTER OF COURSE.

Thanks to our many years of experience and professional training, ensure the high professionalism of our workers on projects.

02.

SAFETY IS A MANDATORY.

One of our top priorities is taking care of the safety and comfort of our workers. We also pay attention to strict safety standards when building scaffolding, so as to minimize personnel injuries.

03.

RELIABILITY COMES FIRST.

Our client receives 24/7 project support from us, with the help of which he can solve all unexpected situations.

ABOUT US

OUR STORY

For more than 17 years, we believe that every dream deserves reliable, safe, and comfortable scaffolding.

That is why our customers or partner can choose and adapt services exactly according to their needs without having to deal with additional subcontracts. This is where the added value of KUKLA SCAFFOLDING lies for everyone. Thanks to great flexibility and experience, in our history we have successfully completed many facade, industrial, and event projects throughout Europe. We are still not finished and we plan to support your dreams on other continents as well.

Satisfaction and good relations with the client

Increasing the quality of services provided

Worker satisfaction and safety

Growth of a family-oriented company

Successfully and qualitatively done work

THE REALIZATION OF EVERY DREAM DESERVES RELIABLE SCAFFOLDING.

Our partner can adapt our services precisely according to your ideas. And, what is the main thing, you don't have to deal with any subcontracts! Thanks to great flexibility and options, we are available for any project. And these are the added values of our companies!

WE HELP ON THE WAY TO THE TOP

As a company, we love a challenge, so we're open to yours too. We are proud that our work began right here, in Slovakia. We love Slovakia.

We make our work more efficient, faster, and safer. Providing the best service to our customers is what drives us every day. Our unique corporate culture is the living ground for our commercial success. This achievement was possible because of the outstanding performances of many individuals. Our entire company was built on mutual trust and respect for each individual. And this approach can be felt by each of our clients.

01 SERVICES

Our primary services include the sale and rental of scaffolding and its assembly

Do you need to hire scaffolding for your project? We will take care! Do you need to buy scaffolding? We'll take care too! Or do you need to build scaffolding? Of course, we will take care of that too! And not only that, but we will also provide you with first-class support from project managers, technical support, as well as human support.

FACADE SCAFFOLDING

We carried out the assembly and disassembly of facade scaffolding on projects of various sizes, from more minor to large projects reaching heights of up to 60 m in several European countries.

INDUSTRIAL SCAFFOLDING

We provide assembly and disassembly of more complicated industrial scaffolding in various industries such as paper, and chemical, as well as nuclear power plants, refineries, and various warehouses.

EVENT REALIZATION

We can build a stage, stands, and other structures for you that will enrich the event experience.

SCAFFOLD SAILS

We cover your construction with the help of wind tarps, thanks to which you can protect yourself or your workers from weather conditions and the environment from the spread of construction waste.

PROJECT SUPPORT

Every project begins with precise planning. Our project managers will take care of it for you!

02 FACADE SCAFFOLDING

We carry out the assembly and disassembly of facade scaffolding on projects of various sizes, from smaller to oversized projects reaching heights of up to 60 m in many European countries. We provide the rental of various types of scaffolding that enable safe work at heights.

Our work and the systems we use ensure high safety at work and save you money. Thanks to our rich experience, we perform our work quickly and safely.

Our company will take care of everything necessary for you.

03 INDUSTRIAL SCAFFOLDING

We can realize industrial scaffolding, its assembly and disassembly in various forms, and most importantly create safe work platforms for all kinds of requirements. The variety of materials we work with allows us to create scaffolding for you with a high degree of adaptability of the structure to the conditions of the project.

Various complex technical conditions or unusual geometries of buildings and industrial buildings, chimneys, and other structures are not a problem for us, as we can flexibly and safely build scaffolding for various projects. Thanks to the flexibility of the components we use to build scaffolding, we can quickly assemble work platforms for your needs.

EVENT REALIZATION

We can build or dismantle stages, tribunes, but also other structures that will enrich your audience's event experience. We also deal with the assembly and disassembly of specific event scaffolding (such as: Loudspeaker towers, Decorative structures, DJ stages, VIP terraces, Video walls, Entrance gates, Access stairs, Footbridges, Advertising boards, Ski slopes, etc.) throughout Europe.

We participated in projects for Formula E, Ironman, golf tournaments, summer theaters, concert stages for various festivals, and various other events. In cooperation with our partners, all these types of constructions are possible to implement and most importantly quickly, efficiently, and safely.

05 SCAFFOLD SAILS

Do you need to cover your construction and protect yourself or workers from weather conditions, or protect the surroundings from the spread of construction waste? We have a simple help for that. Windscreen foils are used quite often in the construction industry.

Different types of buildings often require scaffolding wind sheets as an outer covering. Windscreen is the most cost-effective and durable material you can use. You can choose windsails from us according to the type and purpose of your project. Whether you need a tent for welders, a temporary workshop, a construction roof, or thermofoil for your project, we are here for you!

05 GERMANY

06 PROJECT SUPPORT

Our services ensure the optimization of all processes related to scaffolding technology and thereby significantly increase the cost-effectiveness of project implementation. Per your specific requirements, we support you with extensive international project experience, expertise, and highly qualified professionals equipped with suitable software solutions.

The project department of Kukla Scaffolding analyzes the project's special requirements and plans the optimally suitable, technically advanced scaffolding solution. With the help of software solutions, they optimally support planning with 3D views and additional information. The provision of materials from our warehouse, staff training, and constant optimization of material requirements on the construction site ensures the highest efficiency during construction.

We also have over 300 workers and technical consultants working on challenging construction projects across Europe. Thanks to our know-how and experience, we had the opportunity to take care of projects in several corners of Europe.

WE TRAIN OUR PEOPLE

We love the work we do. We are a family-oriented company and that is why we do not make any distinctions between our employees.

In our opinion, this means that we have one meter for everyone and every one of our employees is guaranteed the same benefits from us.

01.

EXPERIENCES

We will be happy to pass on our many years of experience and knowledge in the field of construction to you.

02.

VOCATIONAL TRAINING AND OHS TRAINING

Since one of our top priorities is safety, that is exactly why we pay for European-level training for our employees.

03.

STABILITY

With us, you don't have to worry about your tomorrow. We guarantee stable work and career growth for our employees.

04.

SATISFACTION

We ensure the satisfaction of our workers with our above-standard service.

QUALITY WORK IS PRIORITY FOR US

We care about the highest quality and expertise. Our Slovakian, German, and Sweden certificates demonstrate our qualifications, expertise, and professionalism.

06 CONTACT

Our scaffolding will help you on your way to the top. We are not just a company.

Thanks to our flexibility and capabilities, we are a company that works for the satisfaction of both parties. We want to make dreams come true. With us it is possible.
